Scaling Advanced Analytics at the Edge

ARUNDO

Tor Jakob Ramsoy, CEO & Co-Founder
MIT - Stex 25 - MIT Alumnus 1995
Three barriers prevent industries to develop and scale useful advanced analytics solutions

- Data stuck on legacy assets
  - 75% EDGE

- Difficult to realize valuable use cases
  - 15% SUCCESS

- Use cases don’t scale despite infra investment
  - 80% BUDGET OVERRUN

75% EDGE
15% SUCCESS
80% BUDGET OVERRUN
Arundo Edge agent is optimized for speed and convenience - from sensor data to business notifications in 15 minutes

Machine learning models on the Edge, works offline

Deploy and manage models either in the cloud or EDGE in one-click

An easy-to-use and build UI
We have the solution if you want to improve your operations with analytics

INDUSTRIES

- Oil & Gas
- Chemicals
- Shipping
- Power
- Mining

+ other heavy industries with complex physical assets

OPPORTUNITIES

- Failure Prediction
- Anomaly Detection/Classification
- Calculation of KPIs
- Visibility on all devices – Thresholds and alerts
