June 25, 2020 11:00 am - 1:00 pm

11:00am - 12:00pm
Returning to ‘Normal’ via Targeted Lockdowns and Personalized Treatments: An Analytics Approach to COVID-19

Dimitris Bertsimas
Boeing Professor of Operations Research
Co-Director, Operations Research Center (ORC)
Faculty Director, Master of Business Analytics
MIT Sloan School of Management

Dimitris Bertsimas is the Boeing Professor of Operations Research, the codirector of the Operations Research Center, and faculty director of the Master of Business analytics at MIT. His research interests include optimization, machine learning and applied probability and their applications in health care, finance, operations management, and transportation. Bertsimas has coauthored more than 200 scientific papers and four graduate level textbooks. He is the editor in Chief of INFORMS Journal of Optimization. He has supervised 67 doctoral students and is currently supervising 25 others. Bertsimas is a member of the National Academy of Engineering, an INFORMS fellow, and has received numerous prestigious research and teaching awards. He holds an SM in applied mathematics and a PhD in operations research from MIT.

Professor Dimitris Bertsimas will discuss his group’s contributions to the COVID-19 crisis using analytics. His group has developed models to predict state by state infection and mortality rates based upon each state’s policy decisions, and models to predict infections without testing, as well as mortality risk of those who are admitted to hospitals with the disease. Dimitris Bertsimas is the Associate Dean of Business Analytics, Boeing Professor of Operations Research, and faculty director of the Master of Business Analytics at MIT and has started several companies, authored many books, and mentored hundreds of graduate students. Below is further information on the event, and we look forward to your participation.

In a few short months, COVID-19 has devastated communities around the world. Dimitris Bertsimas will present the ongoing work of his group of 25+ PhD and Masters students and colleagues at MIT (http://www.covidanalytics.io/team) on a variety of aspects of COVID-19 as detailed at covidanalytics.io. The website contains many downloadable models and data.
Simon Johnson is the Ronald A. Kurtz (1954) Professor of Entrepreneurship at the MIT Sloan School of Management, where he is also head of the Global Economics and Management group and chair of the Sloan Fellows MBA Program Committee. He cofounded and currently leads the popular Global Entrepreneurship Lab (GLAB) course – over the past 16 years, MBA students in GLAB have worked on more than 500 projects with start-up companies around the world.

He also works closely with Joi Ito, head of MIT's Media Lab, on the Digital Currency Initiative (DCI). Specifically, Johnson supervises research projects related to blockchain technology, and teaches a course (with Michael Casey and Brian Forde) on this fast developing business sector. Johnson is not an investor in bitcoin or any bitcoin-related startups, but he works closely with MIT students and others who want to build better companies.

Johnson is a senior fellow at the Peterson Institute for International Economics in Washington, D.C., a cofounder of BaselineScenario.com, and a member since inception of the FDIC’s Systemic Resolution Advisory Committee. In July 2014, Johnson joined the Financial Research Advisory Committee of the U.S. Treasury’s Office of Financial Research (OFR); he chairs the recently formed Global Vulnerabilities Working Group.

Johnson has been a member of the private sector Systemic Risk Council since it was founded by Sheila Bair in 2012; this group is now chaired by Sir Paul Tucker. From April 2009 to April 2015, he was a member of the Congressional Budget Office’s Panel of Economic Advisers. In March 2016, Johnson was the third Distinguished Visiting Fellow at the Central Bank of Barbados.

“For his articulate and outspoken support for public policies to end too-big-to-fail”, Johnson was named a Main Street Hero by the Independent Community Bankers of America (ICBA) in 2013. In April 2015, the Washington Examiner placed Johnson at #11 on their list of New Voices for 2015. In November 2015, Johnson joined the advisory council of Intelligence2 Debates.

From March 2007 through the end of August 2008, Johnson was the International Monetary Fund’s Economic Counsellor (chief economist) and Director of its Research Department. He also helped to found and run the NBER Africa Project; four volumes are forthcoming from the University of Chicago Press.

Johnson holds a B.A. in economics and politics from the University of Oxford, an M.A. in economics from the University of Manchester, and a Ph.D. in economics from MIT.

Professor Simon Johnson will give an update on the progress of the COVID-19 Policy Alliance. They have made incredible progress on rapidly producing actionable data intelligence and operational recommendations that can help governmental entities and organizations make better policy decisions regarding the healthcare system and economy.
